Dear Friends,

Thank you so much for the wonderful 20 hour footage of Oxford and the Rhodes scholar program. What a wonderful medium television can be when used correctly.

I lived in Oxford for a year while writing a book and would very much like to go back. Those street scenes and the college buildings and quads were the next best thing !

As a registered Republican (who voted for Ross Perot) in the last election, I had serious misgivings about the Clinton administration. Your program has reassured me that we do have a thinking, caring man to lead us during the next four years. Hearing the interviews with dons, fellow Rhodes scholars and college officials did much to quiet my fears. The English are not given to fulsome praise so if their assessment of Bill Clinton is positive, the least I can do is to keep an open mind.

I also enjoy your coverage of British parliament and hope that you will continue and expand your coverage. Any chance you might broadcast British soccer matches? I'm not sure how that could be justified within the context of your program genre but perhaps you could find an angle .

How may I receive a schedule of your programming ? The shows I do catch are largely chance, so would appreciate a schedule.

Thank you for all the fine work. I wish the other networks would wake up and realize that not all the American viewing public wants to be lulled to sleep with stupid situation comedies and worn out shoot-em-ups. Some of us live in the real world and haven't lost the ability to think.

Cordially yours,
