

C- Egan

Whoever —

I just witnessed your
so called Journalists round-
table. Why do you have such
dicks from talk radio. They
have nothing to do with journal-
ism. What an insult to viewers
to listen to such nonsense.

They reminded me of little
hyperactive Danny in the de-
bate, what a child. As the
LA Times stated he lied
75 times recorded by 36
organizations, Broder's col-
umn. Why this man for
Bush and many other Re-
publicans think all they have

2 to do is talk loud enough and interrupt and be as obnoxious as possible that people will enjoy listening. I had to tune you out.

I enjoyed seeing Mr Eckley from Clinton campaign. A dignified knowledgeable man. Heard some of his answers cut short. And then Jeb Bush get so much time to answer each question. Is it because Open World is for Bush?

I enjoyed seeing Rance Olson, economist from Un. of Maryland on your program. I would like to see him on a show.

When I have your program on my husband wonders how I can listen to such rationally ignorant questions so many people

3 ask. He leaves the room. It must
be very boring to have to listen
to such lies as some tell. They
don't have their facts right.

I've noticed quite a difference
in the quality of people working
for Clinton. They're more dig-
nified, more intelligent, more
honest.

Just wouldn't it be great to
have a campaign without lies
and distortions. The reason
Bush wires loose is because
of lies and character assassina-
tion. People have caught on.
Perot is right about Republican
dirty tricks. It isn't anything
new.

I don't trust or respect Bush
I think the future wires tell
us more about Bush lies.

He deserves to loose. For that
wife of his to state on TV that
George has never told a lie.
Power does corrupt and Bush
is very corrupt.

I'm surprised that 10 %
of the Am. people are so
ignorant unaware and
complacent to vote for him.
It shows what lying does
to win an election. Its
degrading to the office.
