

Your Program is not on
in my home! None of you
People will bring out the
most important issues -
Problems facing our Country!
and you Need to know
that the Majority of the
People do not believe what
they hear on these programs
any more! Why don't you
People let the U.S. Citizens
by Powers speak up about
our problems and how
we believe we could get our
Country back on the right
track?
