"I watch C-SPAN public affairs network because it is a very informative program.

It is so nice and relaxing to sit before the television and view a program that appeals to the intellect. Each program is an education, and almost like a college course.

We have learned in detail how many phases of government and society operate. On one particular program we learned a great deal about taxes, and how the tax system works.

Those who participate in the program are very knowledgeable. In viewing these programs the knowledge is imparted to us. In this knowledge we know what we discussing when we converse with others on various situations.

The program is carried on in good taste. My husband who is retired constantly watches C-SPAN. It keeps him alert and up to date.

We enjoy the question and answer part of the program. Questions are answered without confusion.

We have been greatly informed on Social Security.

Our views on the Equal Rights Amendment were broadened as we watched this evenings Program.

Thanks to those who provide these programs, so we can learn at home.
