

Or even bread!!

ESPAN - I give up! I bought a Fax machine, I have tried calling for 3 years! Can't get your card. At same time, some men good to be heard so often that I recognize their voices!

Be that as it may, now read this: re talk shows vs printed media; the former appeal to "feelings," the latter to "thinking." Given the sorry state of our educational system, it is no surprise that a great many find it difficult to think! \*Great journalists of any opinions, are getting rarer and rarer. Jack NELSON is one of them and I read many of all persuasions!

Sincerely
