

June 25/92

Hi.

I watch CSPAN a lot. You claim to be fair. Yet today you had 2 gentlemen selling their book about "What Happened to America" or something like that. They had a chart which you displayed showing that Fed Retirement Plan was better than others. I think you need to have a rebuttle on this one from a NARFE representative (National Association of Fed Retirees) since these writers failed to note that (1) Most Fed retirees do not get Social Security at all and others take a cut in SS when they retire from Government. Unlike Private Sector retirees who collect both company pension + social security.

(2) Fed retiree annuity is fully taxed by state + Fed IRS unlike exemption for most SS annuity.

P.S. Be fair Thank You
