

DEAR Mr. Lamb:

Feb 16 '94

Thank you for Jerry Brown.
We need to hear all the "angry"
young men today, & especially a
thinker like J.B. Have been
listening & straining to hear any of
our Congressmen ~~to~~ speak out —
but I hear nothing but gobbledigook.

Have you gotten a program
together on "Single Payer"? It's our
only hope. Clinton's "plan" is unbe-
lievable, unworkable, & will bankrupt us.
One fact I've never heard mentioned:
that being "global," as our people are,
we must have health care included
if they should fall ill anywhere in the
world, & since most of the rest of the
world has Single Payer, we really
should ^{have} a plan that they can deal with.
In anticipation, [REDACTED]
