

Sirs: I've tried to call in, but obviously C-Span is popular with so many others their calls flood the lines. Since Congress does not listen to "we, the people" in its self ordained, but severely flawed 'wisdom', it's wonderful to find some truly intelligent people who will! I am, along with the not so silent millions of other taxpayers saddled with paying the huge bills for the incessant debauches of a callused and ignoring of our outcries, shortsighted Congress, ~~totally~~ frustrated with the insatiable greed of Washington's 'FAT CATS' who call upon everyone else to sacrifice but never themselves. The hypocrisies, misleading camouflage of their true motives for such actions as admitting millions more aliens, which H.R. 4300 will do, is sickening. I'm glad C-Span airs American views and your discussion are in English.

Sincerely, [REDACTED]

ESMOND, R.I.
