Mr. Bryan Lamb:

Dear Sir:

I watch your program every Saturday night and I enjoy very much, it is very informative, you speak on so many different issues.

Sometimes I wish I could be there to express my opinion. There are many issues you discuss and some them disturb me very much.

First let me explain I had eye surgery so my writing is not very good, so please excuse me for not staying all the time.

You know what troubles me when all the soliders come home where will

= 2 =

they find jobs, and the automobile factories are laying off so many men that does not sound very good, what is happening to our beautiful United States of America, it isn't like it use to be.

Here is another thing that troubles so many Americans, they let all these foreigners come into the United States, and take all the jobs away from our men, and I don't approve of that at all, and then they go on Social Security, how can they do that when they did not pay into it. You know we are getting to soft we are not strict enough, years ago they were very strict who would come

=3=

come into this country.

And President Bush, wants to close so many bases, so many people are disturbed about that, the Russians, want us to cut down our arms, but they don't want to do it, they were after the Russians to get rid of their missiles but they don't want to, I and many other people I have talked they do not trust the Russians, when I listen to the news at times it sounds frightening.

I wish Daniel Moynihan, would leave his hands off Social Security, they are always messing around with it. I don't know what I would do if I would not receive my S. Security.

I am 81 years of age I could not go out to work.

=4=

President Bush, said not to mess around with S. Security I got to listen to the news every night I want to know what is going on I take an interest in many things.

Mr. Lamb, you keep up being an C-Span, it is a very good program I enjoy it very much

I have heard a lot of people say they don't like it that Japan is coming in here and buying up so much property and one thing after the other, I heard one remark are they going to buy up Washington too, so they can run it, you know that is very frightening. Keep up the good work.

Sincerely,

A Tax Payer
