

I watch C-SPAN because citizens of a confused and frustrated world must be truly educated. Distinguished specialists cover issues from new and exciting angles. Their messages are not condensed or abstracted by the bias of newspapers or radio commentators.

The civility accorded to all shades of opinions reveals the splendor of democracy.

[REDACTED]

I inclose the table of content from our TV program. Hawaii citizens miss C-SPAN because no where is it indicated . "Community Programming" sounds very like the local Boys Choir and the school board.
