We had no  
problem

Mr. Brian Lamb  
C-Span Networks  
400 North Capital Street, N.W.  
Suite 650  
Washington, DC 20001

Mr. Lamb:

Was the interruption of Mr.  
Mandela's speech at the United  
Nations on Friday, June 22, 1990  
caused by a malfunction  
in C-Span's equipment or  
do I give the credit to  
my local cable company?

Interruptions of programs  
occur rather frequently in  
my area - especially when

persons of Gfucian descent  
voicing opposing views are  
featured. The standard re-  
ply from the local cable  
company is "Check with  
C-Span - it's not our fault."  
Finally, I am checking.  
So, who did it this time?

Respectfully Yours,
