

C Span I enjoyed the Round Table on the Nixon funeral. I think the funeral was a Governmental Apology for the forced retirement of President Nixon. I have some questions about Howard Baker's behaviour during the Watergate Hearings. He and Lowel Wycker were determined to get rid of Nixon but Sen. Ed Guerney of Fl was asking questions in support of Nixon. They trumped up charges against Guerney causing his removal leaving a vacancy. That bears investigation.

Baker became Chief of Reagans Staff; not too long after there was a leak about Iran Contra to a mid east newspaper which led to that investigation. Baker left soon thereafter. What if any, is the connection between Baker's actions on the CMTE and Iran Contra?

A & E ran a program on the Watergate Breakin suggesting this was ordered by James Dean to get ~~any~~ evidence in the Secretary's desk who had a side job, making appointments for a call girl's mafia ring. His girl freind had become involved
