I appreciate your complete coverage of the Forest Conference in Oregon chaired by President Clinton and Vice-President Gore. I now realize the complexity of the problem, but must, in good conscience maintain my position of saving every remaining tree in the ancient forests.

Here in Houston we have our share of joblessness (remember we were an oil town) - loggers etc. aren't the only people out of work.

Good show - objective and informative.

P.S. Is there any way you can get my opinion to the Pres?
