C-SPAN's 5th Anniversary  
400 N Capitol Street NW - Suite 155  
Washington, DC 20001

I watch C-SPAN because of its "freshness doctrine." It has become an educational medium, the like of which no one imagined. C-SPAN is valuable because "you get, what you see" - a dialogue with the viewer in mind without props or rehearsal.

C-SPAN brought for those fortunate to be aware of it, a look at vehicles that elect candidates, the tools used in electing candidates and the candidates themselves in settings that was heretofore parochial and limited to excerpts.

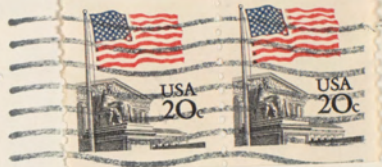

C-SPAN has brought dimension in complete National Press Club presentations, Congressional Hearings, caucuses and actual live precinct fracasas in dividing delegate votes.

If I had an Oscar or an Emmy for your efforts to strengthen this beloved country that I live in, you would receive it for truth, education, depth, and compassion for your listener. Thank you so much. Kindest regards, I remain,

Sincerely,  

P.S. I am also a novice candidate for State Senator in the 2nd District of Iowa. I am retiring June 30, 1984, from management with a corporation that I have been associated with for 38 years. I am 60 years of age, and feel that I can help solve some of Iowa's problems, before total autumn sets in on my good life.
