C-SPAN NETWORK:

RE: Answer to your aired question on 9/6/90, as to how viewing audience regards your programs.

Dear Gentlemen:

"Excellent," is my answer, as a C-SPAN regular viewer, with regard to the quality and importance of the programs aired by C-SPAN. I have learned more about Congress and U.S. government from viewing C-SPAN, than I have from my entire life experiences, since 1924, including 10 years of higher education. It would be an invaluable educational requirement for the Civics History course from grades 9 - 12 of U.S. highschools, as homework including written opinions, on both sides of every issue aired, to be given a brief ten-minute classroom debate at the conclusion of the daily homeroom class period, not more, because this can promote political persuasion in public schools. The debate purpose should always be to conduct a balanced argument on both sides of any issue, with student referees from both sides, no teacher opinion ever permitted, and no political persuasion promoted by referee or teacher.

Contrary to the C-SPAN female commentator on 9-6-90 at 12:30 mid-day, I do not think that C-SPAN promotes conservative views or issues but, rather, the opposite, showing a dangerously liberal democratic Congress promoting costly, no-win programs regarding drug-user control education, crime-

control education, sex-control education, alcohol-control education, all of which begins at home, with the mother, when the subject is born and strictly enforces right ~~was~~ ^{vs.} wrong, good ~~vs.~~ ^{vs.} bad, health ~~vs.~~ ^{vs.} sickness, respect for authority and rights for life and property of others, and reward and survival to be the result of each individual's work done. The job is done, pattern set for life, between age 3-4, by a mother, one-to-one basis, never by a child-care collective or non-mother. Child-care collectives will breed more, worse crime than ever before = Anything else will continue to drag the U.S.

economy, society, progress, contributions down below the competitive level of the new world open market.

No world competitor can continue to play games of Equal Opportunity and Affirmative Action hiring based upon ethnicity. U.S. urgently must require the highest quality competitive hiring in the workplace, top to bottom. Otherwise, ethnic puppets will be in supervisory positions, unqualified in reasoning, logic, problem-solving, decision-making, rapid computation, governing, self-discipline, --- with MENTORS pulling their strings, running the U.S. government from behind the scenes. That has begun 30 years ago in U.S. to our demise. It has ruined society, civilization and drained the wealth from many Socialist countries of the world as all Socialist economies are destined to do, under the Marxist planned economy requiring perpetual war to guarantee a known, fixed number of people drawing upon it, who must be expendable when their numbers exceed the Socialist (5-year) plans. The inefficiency of Socialism has been the cause of starvation, poverty, war, mediocre education and health education, cultural degradation. Demand self-education, self-responsibility, self-employment. Outlaw Socialist welfare immediately in U.S.

Thank you,
