Ref.: \$ 10 billion in U.S. loan guarantees

Dear Mr. Lamb,

be assured, that you are admired by most fellow Americans when your station airs interviews with public officials that have first of all America at heart, that are concerned about our problems and how to **invest our tax** money into

U.S. Employment
Education

Health care and
Housing

before disbursing it to foreign countries for their territorial expansionistic desires.

Some public officials seem to find no limit in catering to the Jewish power structure. They become monkeys on the leash and work and dance to their tune to benefit from media endorsements and campaign contributions. In reality they lose touch with the American opinion and jeopardize America's interests.

Supporting more settlements in the occupied territories only adds fuel to the fire. Calling it humanitarian aid is twisted. The people that live on that land and own it for over 1000 years have their property rights, freedom, honor and dignity taken away with our US Dollars. It is not right, that we contribute to hatred between people, that we contribute to a future chaos which is bound to happen in this part of the world as long as their current policy is continued.

They have to learn to get along with each other with respect for each other, dignity and freedom for all. This is not achieved by **power play**.

Let's not waste more money on more *bail-outs*. Let us use our tax money for our people and getting our economy and education rolling again.

America first!
