Producers of Call in Program

I am sorry to express my opinion concerning two call in programs in reference Gov Clinton. One guest a Republican opponent of Gov Clinton in Arkansas - a very bitter and unfair guest who succeeded in trashing a candidate for personal reasons. The second was the newspaper editor from Arkansas who had an ego that was so evident that he was also an unfair guest. Both of these men made unfounded charges that were viscous and with no one to respond but the callers who also took issue with this procedure.

I must say that I have
always gave credit to C-Span for
fair, and unbiased programs but in
this case I think you were wrong.

I am not especially a supporter of
Clinton but these programs did not
add anything useful.

I will add that when President
Bush starts his dirty tricks Campaign
which they have threatened to do I
will expect to hear and see similar
call in programs that will trash
the administration as well. There is a
lot of information and government
scandals that are not brought forth
and most people don't even know about.
You should have no trouble finding
guests to do this. Let's be fair to all.

I also subscribe
to "Roll Call"
which you quote
occasionally.

Sincerely,
