Brain

O-Wy.

I can't believe that you seemed so naive when a caller complained of liberal media bias (a known fact) to us out here - But why don't you know it - and you are part of media? Does this mean that media does this & are all unaware of what they are doing?

You're telling a caller now that he doesn't have article & must tell truth on your program. Are you?

To bring up Rush being arm of Republican Party is no comparison - This is one talk radio host of which there are many - & Democratic too.

radio & TV The subject was media - mostly (our most common source) and newspapers - So you should have brought up a liberal talk show host -

to be fair - And not compare
Rush to liberal media (over
networks - especially CNN are
all biased - liberal biased

You should correct them.

You are either liberal too or uninformed
✓ Anyone reading newspapers & listening
to CNN could see bias.

Did anyone on your show tell that
Democrats ad was racist before election?

All I heard was headlines all over
about Republican's ad on Clinton, which
they told truth. That is bias. The
Republican ad was on TV & newspapers
not Democrats ad - It was racist. The
Republican would have been demonized
if they had that ad. News gave
Democrats a pass.
