Dear C/Span - or Brian

I copied the following out of my Journal - dated 8/31/90.

From C/Span I learned last night that a membership on the Board of Education is for many a first step of ~~many~~ politically Ambitious persons - and not particularly just a spot for those who care about kids + education.

Also C/Span taught me a thing or two about conflict resolution. And about one of my past selves that finally burnt out. Thank God! My Self RIGHTEOUS INDIGNATION Self

An irate self righteous caller confronted one of the panelists with his suspicions of conspiracy and the panelist replied by calling attention to the importance of addressing the issue rather than assigning blame.

I suddenly realized how important it is to take responsibility and not create a game of Uproar and polarization - . More CHAOS is not a part of the solution.

C/Span allows me to see the futility of the violence of personal attack. C/Span also allows me to see the maturity of the person who is able to turn away the attacker and bring things back to sanity. Watching such transactions helps me let go of some more of my own Self Righteous Indignation. However I still am a suspicious person as well as a new discoverer ^{now} being tempted to get back into the political Donnybrook -

My conspiracy P.O.V wants C/Span exposure of the profits accrued by the manufacture & sales of Armaments - through neutral countries. I would

Love to see that hit the fan
I am such a fan as long to be hit.
Thanks C/Spon

P.S. As you can see C/Spon helps me enjoy
my Self Righteous Indignation!
