Dear Friends,

Thank you for airing the discussion featuring Larry Kramer, AIDS activist and Dr. Anthony Fauci, Dir., NIH. on Nov. 30.

Both guests offered me informed and eloquent insight about AIDS and AIDS research.

Give me more cable programming like this and gavel to gavel coverage of the political business day to counter balance the dribble that is churned out into brainless sit-coms and juvenile buttheaded animation wonders... And make them all available in the accessible super free speech highway, C-SPAN will continue to be my favorite channel.

Sincerely,

[REDACTED]
