

Douglasville, Ga. 30134

29, 1996

Dear Mr. Lamb;

I just listened to McLaughlin's....One On One program.....& I just want to say, ANYTIME you need my help, I will volunteer my time to defend your patriotic quest. And I consider my TIME....VERY VALUABLE!

C-Span changed my life! I think I began my serious viewing in 1987....& I became a more INVOLVED citizen, from a VERY APATHETIC citizen in my younger years. I absolutely HATED POLITICS as a young adult. When I was about 20, I used to cut photos out of TIME magazine to make artistic collages. I only read the entertainment sections or literary sections. I could have cared less about how my country was governed in the Nixon era.

C-Span changed all of that. When I heard of deeply patriotic Americans in government & literary people speak brilliant nuggets of TRUTH, & bravely challenged the status-quo of our Establishment, and it's corruption.....I was inflamed with a patriotism that lay dormant, & of which I never knew I had. Instead of becoming an angry HIPPIE who ranted or dropped out into an escape of some kind.....C-Span allowed me to learn the truth of our system & to do my part to contribute thru the written word. C-Span & my passion against oppression was a perfect match of "a worthwhile mission" to change things for the better. I felt called & was deeply flattered to heard expressions I wrote being used by prominent leaders. I can't remember all of them that I coined, but off hand, in recent years, ...I recall no one mentioned "cultural war", "corporate welfare", "unbridled capitalism" with no conscience, & many others, before I wrote leaders about my concerns in those terms.

So far from being an insignificant citizen, my life was blessed with worthy purpose, because my limited education was no barrier in getting through to patriotic leaders or public servants. My plain speech spoke truthfully about how us middle class people were struggling with paying for the privileges, that both the poor & rich were enjoying at our expense!!!!

I feel like both you & Rush Limbaugh had a VERY POWERFUL impact on our nation within the past couple of years! And even tho' Rush is biased in his conserv-

O.BPL

ative views,he none-the-less offered America our most precious resource for a very healthy,strong,democracy.....the people's RIGHT TO KNOW!!!!!! If you 2 had not been strong advocates of the people's right-to-know,I'm sure our country would have been wallowing in a massive state of anarchy in the next decade because of the escalating oppression & deprivation,& lack of patriotism for the good of all,^{in the form of} personal enrichment. So I just thank you for standing like a rock against such powerful,influential systems & groups who abhor the thought that ^{what} democracy really means isthe people rule.Wealthy people have always ruled from the beginning of time,& so when I hear that maverick leaders such as Ross Perot & Pat Buchanan are tongue lashed too death by powerful influences,then I know that even the almighty powerful class,whether governmental or literary, can be be frightened,too.And I think that is pretty amazing in a world in which democracies are not as strong as they could be! I truly believe revolution can happen peacefully,without death in the streets because of injustices piling on & on;on top each other.When there is discussion,the people instinctively KNOW truth!....no matter how many views.And this is what the Founding Father's dreamed of;being the redemption of mankind from personal destruction! I think they were right! You don't have to have cloudy speeches or glossy images to hide truth from the people & make them do what you want.They just simply turn away in disgust for having to endure so many lies & meaningless promises.They get apathetic.They do everything,but swallow poison candy.You can't fool all of the people,all of the time.God makes sure that His truth still marches on!

I think it is very unhealthy for so few people,the Supreme Court,to have so much ^{power} over the lives of millions of people.I sure do hope that such a formidable institution doesn't do you in.Please,keep up the good work of fighting the good fight for your country.As the Bible says;of whom much is given, much is required.I will help anytime you need me....to fight the battle for the people's-right-to-know!!!!!!

Sincerely,
