To C-Span,

Why I watch C-Span?

C-Span is a dream come true for me. You see after 25 years of being a homemaker and working wife and mother. I went back to school for my high school Diploma.

I've always been very interested in our History and our government.

In how it works, who has power to do what and how laws are pass.

C-Span gives all that information for all to see.

C-Span gives us the opportunity to watch our government at work. Your interviews and call in program is most informant. It gives us a new insite and different views on many issues.

I have really enjoyed close-up because I've learned things that I never knew before. Because of that program I have gone out and done research on what ever was talk about.

I do wish you had a toll free number for us who haven't got the money for a long distant call.

We live in an area that cable

hasn't come too. We are caretakers of a small ranch. If it were not for the owner having a Satellite we would have no television at all.

You see my husband is on Social Security Disability and that's what we live on.

Because of my husband's Disability we first had to live on welfare, go through the Rehabilitation program before being put on Social Security Disability.

So when these issues come up before a committee we are very glad for C-Span.

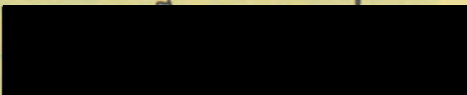

Thank you for the tours and interviews of the different news papers.

Because of those interviews I read more news papers and appreciate them where I didn't before.

I also wish to thank you for the interview you did with our Congressman Bill Thomas. He has been a great help to us in many ways.

Please keep up the wonderful job you and your staff are doing.

From a very thankful viewer
