Dear Friends,

And I mean friends! It's the sanity and balance, we need in to make our own choices. For years I could expect to find these qualities in U.S. News & World Report. But sorry to say that's no longer possible.

Please overlook my handwriting. I am 82 yrs old, former teacher and my writing leaves much to be desired.

However, that's not my reason for writing. I would very much like to obtain a transcript of the program taped on Wednesday, Sept 21 and shown in Bakersfield on Sat, Sept 24 - I believe it was entitled "Talk Show Impact On National Politics". I would like to know if the transcripts are available and at what price.

Two other questions I would appreciate the answers to: #1 is Michael Harrison (Talkers) Magazine - Address. - #2 question - Who was the elderly lady, w/Cane, - Called a "Veteran White House Journalist by Correspondent" - She didn't face the camera

So I couldn't be sure - Was it Harry Dr. - ? or who? I have mentioned several times to my Cable Company - That CSpan - is my main reason for subscribing to Cable. Most of T.V is garbage. Sorry!

I'm enclosing LASE for information requested. Thank you, CSpan! -
