The Honorable Sam Johnson
Representative, U.S. Congress
Washington, D.C. 205 15-4303

Dear Representative Johnson:

I am a conservative Republican, born and raised in New York City, one who appreciates the work of William F. Buckley, William Bennett and Rush Limbaugh, etc.

I would not--did not--vote for Ross Perot for President.

BUT, my information, which includes Mr. Perot's testimony on audio tape before the U.S. Senate last Spring (blacked out by the dominant media culture AND, most disappointingly, by C-SPAN) is telling me that NAFTA is downright treacherous and treasonous. It is anti-American Constitution, anti-American Business/Working Class/Middle Class, and anti-American Sovereignty (definitely promoting open borders nonsense in fact already, and in law whenever NAFTA receives Congressional approval.)

And to think that Republican President George Bush, who took a loyalty oath on the Holy Bible to the Constitution, presided over the setting down of this clandestine TRAP for the American People is almost too much to bear.

Officially, we have not been told the truth about Canada/NAFTA. There are, however, a few outlets where the un-rosy side of NAFTA has reach some American ears. Canada "threw out" Brian Mulroney on the strength of the failure of NAFTA to do any good for the average Mr. and Mrs. Canadian and family. Question: Why would it be any different for the U.S.?

Please listen to the enclosed audio tape. Also, try to listen to Mr. Perot's speech before the United We Stand Organization in Boise, Idaho which was covered by C-SPAN last week (July 17 or previous.)

Please follow Mr. Perot's advice and scrap it. SCRAP IT! Start anew!

FURTHERMORE, while you, Congressman Johnson, are in a position of power, please pull for, vote for an America that is always self-sufficient despite whatever global conditions exist, whatever

global temptations for money-making are present-- when these temptations reward just a few elite and decimate the American Dream for the general population.

Thank you for your kind attention to my point of view. I hope it will help to change your thinking on NAFTA and the way it stands at present.

Sincerely, 

Enclosure

P.S. Questions: 1. Have you or your staffers completely read through the huge tome that is NAFTA?

2. Is reciprocity re licensing (drivers' licenses, lawyers' licenses, dentists' licenses, etc.) to be the NAFTA law despite U.S. or State laws which govern Americans? Why are Medical Doctors and Liquor licenses specifically omitted from NAFTA reciprocity regulations?

3. Will there no longer be permitted advertising which is regionally termed, i.e. Florida Orange Juice, Kentucky Fried Chicken (which has already changed its wording to KFC) in order to prevent Americans from BUYING AMERICAN?

4. Will buying/selling rules and regulations be governed by a NAFTA commission which will supercede EVEN THE U.S. SUPREME COURT RULINGS?

5. What other anti-American outrages are in store for U.S. citizen/entrepreneurs which are enumerated in this most ill-conceived document? Example: A Ralph Lauren Polo sweater purchased for \$8.00 in Korea which sells at the Highland Park Village R.L. Polo Shop for \$80.00 helps neither the American worker nor the American consumer, DOING EXACTLY ZERO FOR THE AMERICAN ECONOMY except to the extent that it fills the coffers of certain few elitist GLOBAL ENTREPRENEURS who may have big egos, but certainly NO PATRIOTISM!
