Gentlemen

I found the broadcast on Sunday of the gathering of the gays and lesbians in the worst possible taste and--in at least one singing act that I watched in fascination--quite offensive.

I am both a liberal and a staunch upholder of first amendment rights, but I wonder what was the point of your covering this event at such length. It certainly did not do anything to enhance the image of the gay community in my eyes.

C-Span represents our last best television hope. Please continue to uphold the responsibility you normally display.

Sincerely yours

A large black rectangular redaction box covering the signature of the sender.
