"Political forces in Israel"
Am. Jewish Comte. Elhad Sprinzer

JUL 17 AMS'D

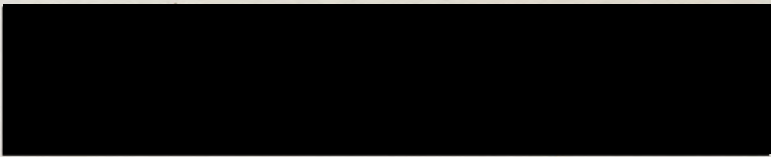

One of the Assertions Mr. Sprinzer made, was, that Israel does owe its very existence only to hard working Pioneers. — yet, these "Pioneers" couldn't have made a part of Palestine legally into a Jewish State, if Pres. Truman wouldn't have signed the Document, recognizing "Israel" as a State. The U.N. who, (because it was done so hastily, without defining its Borders) reluctantly gave their Consent, which resulted in the unbearable bloody conditions, which are called "The Israeli-Palestinian-Conflict," to this Day

The U.N. is "Mumbo-Jumbo", Mr.

Sprinzek said. — Nevertheless, it was the U.N. who confirmed Israel as a recognized State. At the Palestinians Expense though.....

It would be more interesting, challenging, to hear Members of the Media, — Reporters, Columnists, Editors, (a few of them do,) speak up, debate and question Things which (they must know) aren't true or biased instead of sitting there and saying not much.

The UN voted Resolutions against the Iraqi-Occupation of Kuwait. As a Result (because Iraq didn't comply) this terrible War took place. If this was right with Israel, the U.S. and the World, it should be also right now for Israel, to comply with the U.N. Resolutions. — Israel is no Exception to ~~comply~~ to international law, which applies to every Nation.
