Dear Mr. Murphy,

Recently I heard from many people about a C-Span program, The Cassie Buckley show, where Dr. John Hagelin, the Presidential Candidate for the Natural Law Party, was interviewed. People spoke highly of the show but I was unable to see any of the later airings. Would it be possible to air it again. If not, I would like to ask you to send a direct request to the Commission on Presidential Debates to include Dr. John Hagelin in the debates. All of the American people deserve to be informed and educated about all the possibilities. I thank you for your program and I hope you can influence the Commission to include 3rd ~~of~~ or independent parties so that all have access to media exposure.

I am in favor of the Natural Law Party and its candidates. The Party has much to offer the general public. - New Knowledge, programs and expertise that ~~has~~ been tested and works and can save the country billions of dollars. It is crucial for the nation now that people like Dr. Hagelin be invited to participate in the upcoming presidential debates.

Therefore, I personally send a direct request to the Commission on Presidential Debates to include Dr. John Hagelin. Ask you may want to send it to:

From [redacted] Jr., and Paul G. Kirk, Jr., Co-Chairman
Commission on Presidential Debates
[redacted]

Washington, D.C. 20005

Thank you for your support and we await a positive affirmation on this position. All the best in this upcoming and interesting election year.

Sincerely,
