

O-WJ

9/5/95

This is my first contact with C-Span. (I have tried to phone ^{before} your change in policy numerous times with no success.)

This a.m. there was a lot of talk on C-Span about political bias. Every guest denied any bias. What journalists and all media persons fail to realize is that being human they cannot help but show their liberal bent — to us it is clearly evident.

Also, Mr. Lamb & staff, we cannot understand how you can fail to realize that by restricting callers to what they read in their newspapers, because papers thruout the U.S. are predominantly Democrat, you give conservatives no "in" except to call negatively in response to other callers or to what your staff leader reads.

Just as others have said, I no longer have much of a desire to tune to C-Span. Whereas before I could not get enough of the morning call-in ^{me}.

Personally I have nothing to call in about a case papers a news items are exception are CAL THOMAS asked to be or

more. Both Syria liberal and the lanted. The only lums like that of why is he never span? — Please Do! ^{ASK HIM}
