ATTN: Brian Lamb, CEO

Dear Brian:

I am outraged and appalled with your program on Sunday, April 25, 1993, regarding the march in Washington, D.C.

Over 90% of the citizens in this country are God-fearing, tax paying Americans, who are fed up with being forced-fed these perverts by the news media. This garbage may be playing well inside the "beltway" in Washington, but it does not play in grass roots America.

The question is being asked out here in grass roots America, "Who is killing America?". The answer is, "The News Media, the President, Congress, the Supreme Court, "NOW", and the "New Agers" - (Hollywood).

When the first four-letter word was shouted from the speaker's platform, C-SPAN should have pulled the plug on this trash immediately.

Please do not come back and throw the First Amendment of The Constitution at me, because I would then have a couple of questions you would need to clarify for me:

- (1) Why are Bibles outlawed in our public schools. If our children should take a Bible to school, they would be sent home. They could take a copy of Playboy magazine or Hustler magazine to school. This is perfectly admissible. In Russian schools, they are allowed to pray and read the Bible - but not in America!
- (2) Why are the majority of American First Amendment Rights abridged by a very small minority?

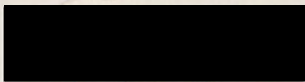

America is not dead yet, but it is in intensive care on life support medicines.

Sincerely,

Onalaska, Texas 77360

P.S. The next time C-Span programs this kind of television, I am going to pull the plug on you. I am going to request my local cable company to black out C-SPAN on my program.

Onalaska, Texas 77360
