I watch C-Span because...

I watch C-Span because I find it very informative about events happening in the world and nation at the present time. It is like a newsreport expanded to bring exclusive reports from leaders of the world, meetings at the U.N. and large business' and tells you what you want to hear about what is going on. I watch C-Span because it is very informative and I can watch court hearings, meetings, interviews, etcetera live instead of reading about them or hearing them on the news. Usually, C-Span gives the full story, not just the major events or words you usually can't even understand on the news or in the newspapers. C-Span is exclusive cable T.V. and is a better news channel for watching recent events on the news... better than CNN, or any channel for news broadcasting. That is why I watch C-Span-- to get the best and inside information without all the confusing words and pictures.
