I watch C-Span because of the interesting facts that the programs inform me about the issues that are discussed in our political arena. With the special insight into a particular issues, I can judge the facts as well as contrasting the reports from other media. With interview programs and various coverage, I have the opportunity to understand the opinions of the public at large.

The congressional debate covered by C-Span is on ~~ed~~ rewarding for the American people are able to examine how a bill is being initiated, debated or discussed by our leaders.

In a democratic society, the citizens must be informed about its government body, Legislations and various other affairs which not only affect their lives but also the lives of the people around the world.

I believe that this network performs tasks that others are unable to do-- namely the coverage of the most influential political leaders in this nation in debate and the rhetoric itself.

Mankind educates himself depends on how he sees the extreme need for education to such an extent their curiosity and intellect expose themselves.

In summary, I find C_SPAN is a network of quality and is the best educational channel which guides me to the better understanding of politics.
