

Dear Mr. Brain Lamb: While I am a great fan of C-Span (and will continue to be) I am very disappointed that C-Span would allow "60 Minutes" to air their trash on your network. This because so-called "news programs such as "60 Minutes" "dateline" "20/20" and such news magazines are not now, and have never been dispenses of real news. Rather they are the equation to "super market tabloids" and excel in the art of dispensing propaganda that seek to advance their political & and social goals. They also play a large part in the "dumbing of America".--Given that I still want to thank C-Span for all the fine airing they send out.
