C Span Network
Washington, D.C.

O. B. TOLG

I believe the staff of C Span believes
the United States western border ends
east of the Rocky Mountains. Apparently
west of the Rockies is just territory.

I wanted to view more of the
Journey of Alexis de Tocqueville but the
5:30 AM broadcast was difficult to
observe.

It seems to me the Pacific
Coast States are not taken into
consideration when programs are
broadcast —

When I do arise at 5:30 AM
I hear the number that is given on
the program is not the same as the
number given on the schedule sent
to me — I wonder why?

When I listen to the questions
and answer portions of the programs
I have noticed that when the questioner
says anything concerning more
Republicans are given time than
Democrats, the accusation is denied.

Not long ago you had a Republican
on both C-Span & C-Span II - at the
same time. Also recently you had
some one on from an institute that
is trying to change liberal ideas & laws.
This is terrible!! The poor person
hasn't a chance - !!!!! The
gap between the have & have nots is
getting wider & wider & wider.

I just don't know what
to think!!

Sincerely

This is not to be
printed or used

Thank you
G
