C. Span -
Program Director -

Please give the
listeners some
relief from
Republican Congressmen

Dear Sir -

I am listening as I write to
the 8 A.M. call in program. It is
very discouraging to hear these
Republican Congressmen coming on your
call-in programs with their speeches
written by the speech writers for
President Bush. They are desperate to
defend Republicans and the president
and are not telling the whole truth
when bashing Democrats. Most
people who are listening do not
understand the state of the government.
He just now stated that the budget
presented by Pres. Bush did not
require any spending and did not

say that congress has proposed less spending than the President called for - only in different areas..

I would suggest that the tax on the rich is a red flag to the administration

It would be a welcome change for C span to have some one from the pentagon to explain the stock piles of junk they have amassed. According to column by Mark Thomson from Knight Ridder Newspapers (Akron Beacon Journal - March 1) there is ^{\$}9 billion worth of materials in stock which are not needed. Some material obsolete

This congressman now speaking (Rep Mc Crary from La) is ludicrous in his sarcastic remarks probably furnished to him from the Rep committee.

Sincerely -
