Hello,

Thank-You for your program, and
I must say C-Span is my favorite TV program.

I was watching C-Span sometime in Aug.
when they were deciding on a bill for Women's
Health Problems, & one of the Senators
said, "He was very much into this type of
research, As due to research along these
lines he became a father, He went on to
say his wife could not get Pregnant due
to the fact one of her parents had R. H.
Negative blood & thanks to research and
the Logan Vaccine they now had a son".

I wonder if it is possible to obtain the
Name of this Senator & a Copy of his speech.
Or a Copy of this program.

I would deeply appreciate your reply

I have enclosed a self addressed
envelope for your convenience & would
be willing to pay for this copy, so looking
forward to your reply for the amount due.
Please reply,

Thank-You

Sincerely,
