Dear Brian:

I have one complaint. Your practice of asking callers who they voted for in the last presidential election seems unfair and unnecessary. In your March 30 program at US News, you even went a step further and asked the caller his reaction to trouble in earlier administrations.

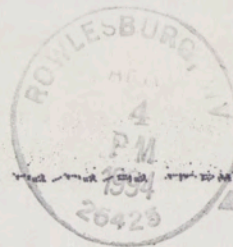

I have difficulty understanding your explanation that viewers want this information to know where someone is coming from. Is it really difficult to tell?

Thank you for C-Span/.

Respectfully,

[REDACTED]
