Dear Sir:

I have checked and re-checked with everyone I know, I am now turning to you for hopefully a positive response. I have taped just about everything regarding the Thomas nomination since the day President Bush announced his selection. But, due to not having C-SPAN2 through Douglas County Cable-Vision I was unable to tape the afternoon session for Thursday, Sept. 19. C-SPAN re-aired the morning session, but not the afternoon hearing starting with the Congressional Caucus among the witnesses. Is there anyone I can contact to receive the afternoon hearing. I would be more than willing to purchase a taping of that session or a possible transcript of the afternoon hearing.

Sincerely,

(Mrs) [REDACTED]
