

all-night viewing, and there are very few young who would be interested. Am hoping it will be shown in entirety over the week-end.

I realize programming, due to House of Reps. timing, must be difficult & fluid. Also, no one can stay glued to the TV set so one suggestion I have is when the previously recorded programs show that on the screen, also add time it will be over. Then, if one is not interested, you can tune in at the end & know what's next.

I'm fortunate to afford cable just for the C span channels but can't take on expense of your paper &/or phone calls for current schedules.

Now, on listening to program schedule tonight, I find I associated Rep. Gonzalez' Thrift oversight committee, to which I've become addicted, if I stay up all night. I would if I could

but I can't. And, if I remember
correctly, the Amer.-Mex con-
ference will be aired twice in
the evening. Again, I'll just
hope for a Gonzalez repeat on
Fri, Sat. or Sun.!
