Dear C-span,

about a month ago a lady called in with a question, Mr. Lamb, asked her if she was a democrat, she said no I am an independant, then Mr. Lamb, asked her why she called in on the democrat line, her answer was there was some things she liked about that party, Mr Lamb, cut her off, did not give the host some time to answer her, by using the three party lines, are you keeping tally on party calls? I see no reason for three lines, the two lines I thought worked very well,

(O.W.)

There are other call in programs, these kind of programs, gives us a good base, and the most truth, some quest are not up to date on the subjects

some just are very, very good, especially
the men, the women talk too much,
with little knowledge, especially
medicine, none uses are mostly
wrong. I am a failed the way, or
duration this government is going.
Congress has no idea of balancing a
budget or anything else, they have
accomplished nothing worth while, the
first four months of this year, most
people take a vacation once a year,
Congress takes one every month, besides
three or four weekends where we
take one holiday they take up to a
week, when next December comes they
will work around the clock and okay
every bill, a bill that not one has
been read, thus Congress has become
self serving, seeking power and
caring nothing about making the
government work, it has become a
play group and traveling groups,

Sincerely,
