Dear C - Span,

As an average citizen I watch C-Span because it really gives me a sense of how decisions are made in gov't. One hears other ideas, therefore making a rational judgement about affairs of the nation are easier for the ordinary citizen.

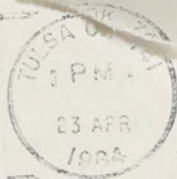

C-Span has opened up a new world for me, a world of better understanding of the process of gov't.

The show with Sec. of Transportation Elizabeth Dale was marvelous - I am so impressed with her, & respect decisions she makes. She is one woman that could be a candidate for President.

Keep up the good work. T.V. can be a good medium for communication. Your show really impresses me.
