Dear Brian:

Many thanks for hosting the SES Global Board at CSPAN headquarters last week. The whole board was clearly engaged by your talk judging by the volume of questions. CSPAN has been an important customer for Americom, not just as a result of your content but also due to the leadership roles that  and  play in the cable industry and among key programmer groups, respectively. We appreciate the value of this association and look forward to continuing to build our relationship in the future.

Thanks again for inspiring our board.

Best regards,
