Daytona Beach FL 32114

C-span.

Dear Mr Lamb.

I recently switched from antenna  
to cable and found my favorite program,  
C-span. I'm uncertain how to call (apparently  
taken awhile to phone) I like politics and  
never failed to vote. But <sup>most</sup> rewarding to  
see and hear how government works.

Now, may I ask a favor? To  
forward enclosed letter to Cong. Gephardt?  
(gmo) Do not know his address  
and, at the moment, how to spell his  
name.

Keep up the good work.

Sincerely,

C. Span

I remember much having lived through the depression in the 30's.

The American People ("Kicked Co" for the politicians), I believe, are the culprits of our failed economy. The unions too. At first they were beneficial - then the strikes for more money from the 40's on. I wonder if they did it cause the big companies to <sup>leave</sup> other countries for cheap labor? If only we would boycott their products, their high priced shoes etc, I doubt it. We are a selfish, greedy lot. Especially the social security recipients. I feel all of us should pay taxes on our benefits.

A lot of us buy Japanese cars because they cost less and are better built.

It's wake-up time. I truly hope NAFTA becomes law.

Signed. Old woman
