

Dear Mr. Lamb:

O-AIM R

I thank C-SPAN for airing the remarks of Cmdr. William Donaldson at the Accuracy in Media Conference. Coming at the beginning of the hearings by the NTSB on the TWA 800 crash, Donaldson's remarks gave us an opportunity to hear facts about the crash that the broadcast networks and other mainstream media refuse to report.

I was particularly pleased to hear Donaldson's interviews of eyewitnesses. It is outrageous that not one of them has been permitted to testify at the NTSB hearing. C-SPAN's airing of their voices has exposed the government's determination to bury all the evidence that conflicts with the official line. I suggest that you air Donaldson's comments on the hearings and also James Sander's story about the efforts of the FBI to punish him for writing "The Downing of TWA Flight 800."
