Why I Watch C-Span

Here at my window, I can see the mountains that overlook the Pacific Ocean while simultaneously the Atlantic Coast and Washington D.C. are transported into my living room. Through the magic of C-Span, I see and hear the House of Representatives, presidential candidates and international leaders, and discussions of world-peace.

I view C-Span as complete and unbiased coverage, unlike commercial T.V. and the printed media which offer mostly edited reporting. C-Span allows me to do my own editing!

I am grateful that Liberty Cable T.V. has given me the intellectual gift of C-Span. I will send them a copy of this entry to express my appreciation.

And thank you, C-Span, for being here!
