To Whom It May Concern:

We would like to congratulate you on resuming coverage of the Novisti 1 news program from Moscow. This is extremely useful information for us, and we applaud your efforts to put it back on the air.

As you know, Alaska is closer to Russia than it is to the rest of the United States, and the issues that effect the Russian Far East, especially the border regions, are of vital interest to Alaska and our future. Again, our thanks for covering these important issues.

Sincerely,

[REDACTED Signature]
