Hello and God be with you Brian,

I watched your 'Book Notes' on C-Span with great interest. So you are a book buff! I love the little scenario you 'pose' to your guest..suppose you were to have a dinner party..who would you invite. What a unique way of showing the viewing audience a real glimpse of the author.

The yellow bus..what can I say, another C-Span first and I think a marvelous idea..I hope to see you in Oregon.

This Nafta abortion on America disturbs my very fiber. Our great nation is being hood-winked into completely destroying our economic base and I cannot

for the life of me understand why our so-called electorate cannot see for themselves. If only they could read the book; "THE CONSPIRATORS" HIERARCHY: THE COMMITTEE OF 300 by DR. JOHN COLEMAN.....perhaps they would think twice.

Brian, I send you this info because I think you would truly learn much as I have from reading this. Perhaps you could not share on C-Span what you read, I do not know just what liberties you are allowed. In watching you interview Mr. Charles L.Mee Jr. and question him on his book "Playing God" I realized what I surmised about you all along. I think you are a true American with a love of humanity and the morals that are slowly being eradicated as we speak. It is very sad especially knowing it has been planned.

I applaud your efforts and remember you in my prayers daily. God Bless America.

My sincere gratitude,
