

THAT PUTS C-SPAN & C-SPAN-2 ABOUT  
[REDACTED] WEST OF THE EXTREME  
WEST COAST OF AMERICA. DOES THAT  
MAKE SENSE? - EXCEPT ON AN  
INTERIM BASIS?

COMMENT 2: COULDN'T DO WITHOUT C-SPAN'S

COMMENT 3: MAY YOUR TRIBE INCREASE!!!

MR BRIAN LAMB:-

HEY BRIAN:!

- GOT A QUESTION
- AM A "C-SPAN .A. MOUNC"
- LIVE NEAR (8 MILES) FROM CHARLESTON WVA  
[REDACTED] LONGITUDE
- EVER SINCE YOU-ALL HAD TO ABANDON (WAKE)  
OLD G3 SATELLITE AND MOVE TO  
(N F3 - C-SPAN)  
(2) F4 - (C-SPAN-2)  
I'VE HAD DIFFICULTY RECEIVING A CLEAR  
C-SPAN SIGNAL.
- OUR NEIGHBOR TO THE WEST HAS A "TALL"  
SYCAMORE TREE WHICH I HAVE TO "SHOOT THRU".
- WE GET C-SPAN-2 PRETTY GOOD (F.4)  
BUT C-SPAN IS "FUZZY" SHOOTING THRU  
MY NEIGHBORS LIMBS. (F3)

QUESTION:

SINCE NEW G4 HAS JUST BEEN PUT UP AT  
LONGITUDE [REDACTED] AND IS CENTRED ON  
MID-USA WHY DON'T YOU FELLAS MOVE  
BOTH C-SPAN & C-SPAN-2 TO THE NEW G4?

COMMENT: HELL'S BELLS: F3 & F4 ARE NOW  
POSITIONED WAY OUT OVER THE PACIFIC  
AT [REDACTED]. THE EXTREME  
LONGITUDE OF CALIFORNIA & WASHINGTON  
STATE ARE BETWEEN [REDACTED].
