JAN 23 ANS'D

Gentlemen:

Thank you for the excellent program you gave us with regard to "U.S. Policy in the Persian Gulf. Senate Foreign Relations Committee." As for one have much at stake in this conflict. Three sons all in the reserve status [redacted] with the Navy. [redacted] - the Army National Guard now in Saudi Arabia. and [redacted] Airforce Reserve Medwai volunteered since returned from Saudi Arabia. I have no more to give save a bleeding heart. Don't kill my sons. You see there would be ⁽⁵⁾orphans. My grandchildren who desperately need their daddy.

Your news coverage gave me an opportunity to see Mr. Baker at his best. I am not at all impressed, it was obvious he lays his ground work well in advance. His Republican friends "the Senators on this board" were so well versed in his support, that he wasn't even credit able. For Baker to say Admiral Crowe and General Jones had no expertise is unforgivable. Some nerve, he had not even heard their statements.

2

I say three cheers for our Democrats in their Senate hearing. Mr. Biden and Mr. Sarbanes gave Baker a run for his money. May God give them continuing strength and good health to continue our fight for peace.

Please give us all the coverage you can I feel it will educate the American public and keep us well informed on our Government!

I remain Sincerely,

A Concern American Mother

P.S. I am a registered Republican who voted Pres Bush into office I have since informed him of my mistake and I don't make the same mistakes twice!
