B. WJ

Dear C Span

- 1) Congratulations on hiring the new woman host featured today. Keep introducing new interviewers until you've replaced all the old timers.

a) Low, the man with the mustache going across his face, is automatically turned off now. His arrogant treatment of guests is truly annoying. He is incapable of listening to the answers of guests & his need to control & direct them is offensive. I laughed out loud the morning two of his guests (professors) interrupted his interruptions & went on with their answers.

- 2) The misinformation which Washington Journal allows over the air is a real disservice to Americans. When you allow guests to make statements which are patently untrue, you become another gossip source & another cable channel incapable of delivering intelligent, truthful information.

a - The latest & most offensive instance of this was Steve's silence, twice, when callers stated David Koresh had sexually abused all his children in the compound. If Steve is too stupid to know the truth,

Overstated if possible might have tried to do some real work if you'd take your cameras away from them.

he should be replaced & if its C-Span's policy & let lies & slanders pass unnoted, then you should be replaced.

My plan of action is to make sure the local school boards & schools are made aware of this as well as my grand children's schools as I know you do not accept criticism. AT least the school children do not have to be exposed to this through school time and knowledgeable parents will contradict you in their homes.

Kudos to the Presidents series, Lincoln
Douglas Debates

Boos to: (1) C-Span cameras showing us
Clinton & Buddy getting on helicopters
(CNN does that)

(2) Coverage of political events special to
C-Span (no one in the audience)

(3) Collecting gossip from the good senators
& house members on their way to various
staged events spouting the latest
political spin

Please give us solid information - not act the
junk!
