To Whom It May Concern :

Please tell me why, when C-Span is covering an important speech or interview, my C-Span can suddenly and with no apology or comment leave C-Span at 6 p.m. every evening and show some sports thing or other that can <sup>be</sup> seen elsewhere all over my dial.

My only reason for subscribing to cable TV is to have access to C-Span and CNN. This abrupt loss of C-Span at 6 p.m. is becoming so maddening to me that the frustration level is getting to be not worth the subscription to cable.

Thank you.
